## Copyrights

The Motorola Solutions products described in this document may include copyrighted Motorola Solutions computer programs. Laws in the United States and other countries preserve for Motorola Solutions certain exclusive rights for copyrighted computer programs. Accordingly, any copyrighted Motorola Solutions computer programs contained in the Motorola Solutions products described in this document may not be copied or reproduced in any manner without the express written permission of Motorola Solutions.

No part of this document may be reproduced, transmitted, stored in a retrieval system, or translated into any language or computer language, in any form or by any means, without the prior written permission of Motorola Solutions, Inc.

## Trademarks

MOTOROLA, MOTO, MOTOROLA SOLUTIONS, and the Stylized M Logo are trademarks or registered trademarks of Motorola Trademark Holdings, LLC and are used under license. All other trademarks are the property of their respective owners.

## License Rights

The purchase of Motorola Solutions products shall not be deemed to grant either directly or by implication, estoppel or otherwise, any license under the copyrights, patents or patent applications of Motorola Solutions, except for the normal nonexclusive, royalty-free license to use that arises by operation of law in the sale of a product.

## Open Source Content

This product may contain Open Source software used under license. Refer to the product installation media for full Open Source Legal Notices and Attribution content.

## European Union (EU) and United Kingdom (UK) Waste of Electrical and Electronic Equipment (WEEE) Directive

The European Union's WEEE directive and the UK's WEEE regulation require that products sold into EU countries and the UK must have the crossed-out wheelie bin label on the product (or the package in some cases). As defined by the WEEE directive, this crossed-out wheelie bin label means that customers and end users in EU and UK countries should not dispose of electronic and electrical equipment or accessories in household waste.

Customers or end users in EU and UK countries should contact their local equipment supplier representative or service center for information about the waste collection system in their country.

## Disclaimer

Please note that certain features, facilities, and capabilities described in this document may not be applicable to or licensed for use on a specific system, or may be dependent upon the characteristics of a specific mobile subscriber unit or configuration of certain parameters. Please refer to your Motorola Solutions contact for further information.

# Contact Us

The Centralized Managed Support Operations (CMSO) is the primary contact for technical support included in your organization's service agreement with Motorola Solutions. To enable faster response time to customer issues, Motorola Solutions provides support from multiple countries around the world.

Service agreement customers should be sure to call the CMSO in all situations listed under Customer Responsibilities in their agreement, such as:

- To confirm troubleshooting results and analysis before taking action

Your organization received support phone numbers and other contact information appropriate for your geographic region and service agreement. Use that contact information for the most efficient response. However, if needed, you can also find general support contact information on the Motorola Solutions website, by following these steps:

1. Enter [motorolasolutions.com](http://motorolasolutions.com) in your browser.
2. Ensure that your organization's country or region is displayed on the page. Clicking or tapping the name of the region provides a way to change it.
3. Select "Support" on the [motorolasolutions.com](http://motorolasolutions.com) page.

## Comments

Send questions and comments regarding user documentation to [documentation@motorolasolutions.com](mailto:documentation@motorolasolutions.com).

Provide the following information when reporting a documentation error:

- The document title and part number
- The page number or title of the section with the error
- A description of the error

Motorola Solutions offers various courses designed to assist in learning about the system. For information, go to <https://learning.motorolasolutions.com> to view the current course offerings and technology paths.

# About CSS Getting Started Guide

This guide describes procedures for installing Configuration/Service Software (CSS) and Software Download Manager (SWDL) on a laptop or desktop PC. Follow the step-by-step instructions included in this booklet to install the software.

After installation, see the CSS online help and system documentation manuals for the applicable hardware devices for detailed operational instructions.

## Related Information

Related Information	Purpose
<i>Standards and Guidelines for Communication Sites</i>	Provides standards and guidelines that should be followed when setting up a Motorola Solutions communications site. Also known as R56 manual.
<i>System Overview and Documentation Reference Guide</i>	Provides an overview of the new features, technical illustrations, and system-level disaster recovery for the ASTRO® 25 radio communication system.
<i>Configuration/Service Software (CSS) Online Help</i>	Provides descriptions and important information for all screens and parameters used with all G-series devices.

## Chapter 1

# CSS Supported Releases

Current version of CSS is compatible with releases A7.18 and later.

For more information about supported releases, see *CSS Compatibility Matrix* on your CSS media or ISO.

The enclosed media also contains installation files for the Software Download Manager (SWDL) application. This application is also installed on the Network Management Client and can be operated from a central location. The CSS media provides the Software Download Manager application for service personnel during initial system deployment to load operating software into the various devices. Additionally, the media contains installation bundles for previous and legacy releases (in `PrevReleases` folder).

## Chapter 2

# CSS User Requirements

The information in this guide is intended for qualified communications technicians and maintenance personnel to program, troubleshoot, and align various Motorola Solutions devices.

The user should also be familiar with the use of Microsoft Windows operating systems and the use of a personal computer (PC). This includes installing software, understanding file and directory structures, opening and closing files, copying and moving files, using menus, using the mouse, using Microsoft Windows help, and navigating between application windows. See your Microsoft Windows operating system manuals and online help for more details on using Microsoft Windows.

CSS is installed on the Network Management (NM) Clients that support the following hardware platforms:

**Table 1: Hardware Platforms Supported by Network Management (NM) Client**

Hardware Platform	2024.HS	2022.HS	2021.1	2020.HS	2019.2	7.18
	2024.1	2022.1		2020.1		
HP Z2 Mini G9 with Windows 10 64bit Enterprise LTSC 21H2	✓	✓	✓	✓	✓	✓
HP Z2 Mini G5 with Windows 10 64bit Enterprise LTSC 2019	✓	✓	✓	✓	✓	✓
HP Z2 Mini G4 with Windows 10 64bit Enterprise LTSC 2019	✓	✓	✓	✓	✓	✓
HP Z2 Mini G3 with Windows 10 64bit Enterprise LTSC 2016	✗	✗	✓	✓	✓	✓
HP Z440 with Windows 10 64bit Enterprise LTSC 2015 <sup>1</sup>	✗	✗	✗	✓	✓	✓
HP Z420 <sup>2</sup>	✗	✗	✗	✗	✗	✗

<sup>1</sup> Z440 workstations are not supported in A2020.HS Systems with CAC/PIV.

<sup>2</sup> For more information, contact Centralized Managed Support Operations (CMSO).

## Chapter 3

# Opening Firewall Ports for CSS and Software Download Manager

You need to open appropriate firewall ports for CSS and Software Download Manager to work correctly. For troubleshooting contact local IT administrator.

### Procedure:

1. In Windows, go to **Control Panel** → **Windows Firewall Defender**.
2. Go to **Advanced settings** and select **Inbound rules**.
3. Add Motorola OpenJDK Platform binary file to allowed applications by performing the following actions:
  - a. Click **New Rule**.
  - b. Select **Program** and click **Next**.
  - c. Select **This program path** and provide the location of Motorola OpenJDK Platform binary file.  
Default location: C:\Program Files\Motorola\Motorola OpenJDK\bin\java.exe
  - d. Click **Next**.
  - e. When prompted, select **Allow the connection** and click **Next**.
  - f. Select the appropriate network type (**Domain, Private or Public**) and click **Next**.
  - g. Enter a name for the inbound rule and optionally add a description.
  - h. Click **Finish**.
4. Add specific TCP ports to be allowed for Motorola OpenJDK Platform binary file by performing the following actions:
  - a. Click **New Rule**.
  - b. Select **Port** and click **Next**.
  - c. Select **TCP** and **Specific local ports**
  - d. Enter the following ports:

Local ports:  
22, 6021, 15000-15999, 49222, 49470-49479, 52152-65535  
Remote ports: 1024-65535
  - e. Click **Next**.
  - f. Select **Allow the connection** and click **Next**.
  - g. Select the appropriate network type (**Domain, Private or Public**) and click **Next**.
  - h. Enter a name for the inbound rule and optionally add a description.
  - i. Click **Finish**.
5. Add specific UDP ports to be allowed for Motorola OpenJDK Platform binary file by performing the following actions:
  - a. Click **New Rule**.

b. Select **Port** and click **Next**.

c. Select **UCP** and **Specific local ports**

d. Enter the following ports:

Local ports: 161-171, 1054, 1162-1172, 49370-49389

Remote ports: 50152-65535

e. Click **Next**.

f. Select **Allow the connection** and click **Next**.

g. Select the appropriate network type (**Domain**, **Private** or **Public**) and click **Next**.

h. Enter a name for the inbound rule and optionally add a description.

i. Click **Finish**.

## Chapter 4

# Installing CSS and Software Download Manager

**Prerequisites:** Obtain CSS installation media or ISO.

**Procedure:**

1. Perform one of the following actions:

If...	Then...
If you use CSS installation media (CD/DVD),	insert the CSS media into the media drive. If the installation program does not automatically start, navigate to the setup.exe file on the media and double click the file.
If you use CSS ISO,	perform the following actions: <ol style="list-style-type: none"><li>a. Right click on CSS ISO and select <b>Mount</b>.</li><li>b. Open <b>setup.exe</b>.</li></ol>

2. Optional: If a warning about Java Runtime Environment not found appears, close the warning and use the **WindowsInstallFramework** on the *Windows Supplemental* media to install Motorola OpenJDK 64-bit before installing CSS.

The installer for Motorola Open JDK can also be downloaded from the Customer Hub portal. Make sure you are subscribed to this software before you start searching for it.

Latest releases need only 64bit version. Previous versions may also need a 32bit version of JDK. See the *Readme* file on ISO media.

3. Follow the instructions on the screen.
4. In the **Choose Components** window select software to be installed.

By default, both **Configuration Service Software** and **Software Download Manager** options are selected.

5. Click **Install** and follow the instructions on the screen.

**Result:** Configuration Service Software / Software Download Manager application appears in the **Motorola** menu option under the **Programs** menu and the shortcut icons appear on the Windows desktop. The shortcut denotes **A7.18+** as system release, because the current version of CSS is dedicated for 7.18 and all later releases.

## Chapter 5

# Uninstalling CSS and Software Download Manager

### Procedure:

Navigate to **Control Panel** and use the **Uninstall a program** option.
